## Opening Vacuum Contract for:

Name \_\_\_\_\_ Date Scheduled: (within 3 Days of Opening) \_\_\_\_\_

Address \_\_\_\_\_

City \_\_\_\_\_

Day of Service Contact and Number: \_\_\_\_\_

## Opening Vacuum Preseason and post season Services Please check off Desired Service

**Opening Vacuum Service:** Sometimes debris in a swimming pool is beyond the ability of a standard residential filtration system or automatic cleaner. Choosing this option allows Kasper's to send a service technician 1-3 days after you pool is opened for a general cleaning and backwashing. *Kaspers Opening Crew will not be performing the opening vac.* Kaspers uses an independent vacuum system for large debris. This service does not guarantee, and the customer should not expect, perfectly clean swimmable pool water but rather it gets the pool to a condition that your residential filtration or automatic cleaner can handle.

**\$115 first hour \$47 Each additional 1/4 hour plus chemicals**

**Off Season Vacuum Service:** Kaspers will maintain your pool weekly or biweekly before memorial day and after labor day.

**\$99.00/ weekly visit Plus Chemicals**

**\$157.00/ biweekly visit plus Chemicals**
