Guarantee

Should any defects arise in the filter system, pool recirculation lines, heater, pump unit (wet end only) or sanitizing system caused by Kasper's improper winterizing or usage of defective materials, then such defects will be repaired at no cost to the pool owner. This guarantee applies only if Kasper's performs winterization prior to any "hard freeze" which results in damage to previously noted pool components. Further, any such damage will be noted on the invoice covering winterization. Guarantee specifically does not include winter damage to the pool shell, decks, tile, coping, or spa type return jets. There is no guarantee against any kind of staining that occurs during the winterized season, because stagnant water is unpredictable. If the "blow and plug lines only" service is contracted, this guarantee extends to cover the pool recirculation lines only.

A 50% deposit of all the chosen services (not necessary for chemicals) will be charged to credit card below when signed contract received.

Your acceptance of this contract by signature below, and return of original copy to our office with valid credit card for deposit will constitute a valid contract entered into in accordance with the terms and conditions stated above and on the opposite side of this paper.
